Game Evaluation

GLI's game Evaluation of OV1's "Football Stars, Might of Zeus, Queen of Egypt, The Lion King" games included (but was not necessarily limited to) the following elements to the extent necessary to evaluate the game for compliance with the requirements in the aforementioned Technical Standards:

- **Software Version Control**
  - Supervised Build and Install, and
  - Baseline Signature Creation
- **Game Evaluation**
  - Submitted Documentation Review,
  - Artwork and Game Rules Review,
  - Source Code Review,
  - Game Accounting,
  - Game Mathematics,
  - Emulation Testing, and
  - Verification of Jurisdictional Requirements.

GLI performed an independent calculation of the theoretical Percentage Return to Player (%RTP) values of the game and the results are shown in the table below.

Game Name	Supplier's Submitted %RTP	GLI's Game %RTP	GLI's Method of Analysis
Football Stars	96.71% to 96.71%	96.71% to 96.71%	Simulation
Might of Zeus	95.09% to 95.09%	95.09% to 95.09%	Simulation
Queen of Egypt	93.94% to 93.94%	93.94% to 93.94%	Simulation
The Lion King	92.22% to 92.22%	92.22% to 92.22%	Simulation

Conditions of Evaluation

GLI's compliance evaluation of the OV1 "Football Stars, Might of Zeus, Queen of Egypt, The Lion King" games are subject to the following limitations:

- GLI's compliance evaluation of OV1 "Football Stars, Might of Zeus, Queen of Egypt, The Lion King" game was related only to the technical scope of work elements discussed herein. This specifically excludes any other features or functions provided by the submission not related to these elements. Any sections of the aforementioned Technical Standards specific to the Random Number Generator (RNG), Platform or Financial Reporting were outside of the scope of this game evaluation.

- Although this game may be configured for multi-national languages, only the English language version was evaluated.

- All testing results are based on information and materials submitted by OV1 to GLI throughout the duration of the project. There are inherent limitations to performing compliance testing within a laboratory environment, and within a finite time period. As a result of these limitations, anticipating all possible configurations, scenarios and events which could potentially occur in the live environment was not feasible.

- GLI generated the checksums of the software and source code files using the methods stated below:

  Verify+ by Kobetron™ - Verification Procedure:

  1. Open Verify+ by Kobetron™
  2. Select the 'File' radio button
  3. Click "Browse", specify the file you wish to signature and click the "Open" button
  4. If a different seed is needed, click the 'Options', then 'General Options' and enter a new seed
  5. If needed, other File options can be found by clicking 'Options' then 'File Options'
  6. Click the "Verify" button
  7. The current file being checked will be displayed in the window
  8. The program will generate the aforementioned signatures and display the results

- GLI only tested the requirements related to "Football Stars, Might of Zeus, Queen of Egypt, The Lion King". During the GLI evaluation, OV1 did not provide any Platform or Back office for testing. Hence this game must be operated under jurisdiction approved platform/back office which can fulfil and provide all the jurisdiction requirements of platform/back office.

Subject to the limitations outlined in the **Conditions of Evaluation**, it is GLI's position that the evaluated elements of OV1 “Football Stars, Might of Zeus, Queen of Egypt, The Lion King” game comply with the requirements of the applicable Technical Standard. Accordingly, GLI recommends the approval of the OV1 “Football Stars, Might of Zeus, Queen of Egypt, The Lion King” games.

If you should have any questions regarding this information, please feel free to contact our office.

Sincerely,

Mr. Nathan Gee
Manager of Compliance
GLI Australia
